

PCIMP overview

- 'Port Curtis Integrated Monitoring Program'
- Collaborative approach to monitoring Gladstone's harbour health
- 14 members – government, industry, and research institutions
- Dr Leonie Anderson is coordinator funded by FBA

Monitoring

- Bio-monitoring (oysters and DGT's)
- Intertidal (Macrobenthic, sediment and mangroves)
- Seagrass
- Fish assemblages and fisheries
- Oil spill sites covered in intertidal monitoring due to lack of monitoring planned for impacted areas

Reporting

- Eco-health report card – July 2007
- Colour coded maps and health ratings
