

Trucking of hydrate

Rio Tinto Alcan is transporting hydrate from the refinery at Yarwun to Queensland Alumina Limited.

The truck movements began on Wednesday 25 November and are expected to continue through to Wednesday 2 December.

Trucks will travel along Hansen Road, left into Breslin Street, right into Toolooa Street and left into the QAL access road on a continuous schedule.

The Rio Tinto Alcan team is committed to keeping the Gladstone community informed.

Rio Tinto Alcan thanks the community for their ongoing support. For more information please contact 1800 226 258
