Notification of back-burning at QAL's Residue Management Area

Queensland Alumina Limited (QAL) wishes to advise that a series of controlled burns will be carried out in isolated patches around the Residue Management Area, located at Boyne Island.

The controlled burn is being conducted as a preventative measure to reduce the hazard of an uncontrolled fire and will be carried out under a Permit to Light Fire (#E267591) from Queensland Fire and Rescue Service, which is valid until 1 April.

Exact dates will be dependant on favourable weather conditions. For further information, please contact the QAL Community Hotline: 1800 181 110.
