Notification of blasting at QAL's Residue Management Area

Queensland Alumina Limited (QAL) would like to notify that McCosker Contracting will be conducting planned blasting at QAL's Residue Management Area located at Boyne Island.

The blasting is being carried out as part of QAL's ongoing works to increase the area's storage capacity and will be conducted within the existing footprint of the dam.

It is expected that four to six blasts will occur between 11am and 5pm between the months of February and March.

Exact times and dates will be dependant on favourable conditions. For further information, please contact the QAL Community Hotline: 1800 181 110.
