FOR IMMEDIATE RELEASE MEDIA RELEASE

Turbine Feed Water Pump Commissioning

Queensland Alumina Limited (QAL) is in the process of commissioning a new Turbine Feed Water Pump in the Boilerhouse.

As part of the commissioning process, a blow through of the new steam line is required to clear any debris that may cause damage to the new Turbine. Blow throughs may last for up to five minutes and take place on Wednesday and Thursday the 11th and 12th November at approximately 10.00am and 2.00pm. A louder than usual noise may be heard during this time.

For further information, please contact QAL community Relations on 1800 181 110.

About Queensland Alumina Limited:

Queensland Alumina Limited (QAL) commenced operation in March 1967 with an annual production rate of 600 000 tonnes of alumina. Today QAL is one of the world's largest alumina refineries, producing 3.95 million tonnes of the world's best smelter grade alumina per year. With an average workforce of 1050 employees, QAL is one of the region's largest employers and annually contributes approximately \$400 million directly to the local economy.
