

QUEENSLAND ALUMINA
LIMITED

Notification of back-burning at QAL

Queensland Alumina Limited (QAL) wishes to advise that its First Response Team will be conducting a series of controlled burns of various areas surrounding the plant until early August. There will be a focus on the south-eastern buffer zone area and Pony Club land.

The controlled burn is being conducted as a preventative measure to reduce the hazard of an uncontrolled fire. This will be carried out under a Permit to Light Fire (#E294609) issued by Queensland Fire and Rescue Service.

Exact dates will be dependant on favourable weather conditions.

For further information, please contact the QAL Community Hotline: 1800 181 110.
