Paddle for a Cause category raises \$600 toward Domestic and Family Violence prevention

Queensland Alumina Limited, Boyne Smelters Limited and Rio Tinto Yarwun were proud to donate \$600 to the Coordinated Community Response to Domestic and Family Violence (CCRDFV) organisation as a result of the recent Paddle for a Cause category included in the Boyne Tannum Hookup event. The category was a way to get families involve in the HookUp as well as start the much needed discussion within our community around domestic and family violence. For every entry into the category BSL, QAL and Rio Tinto made a donation to the local CCRDFV organisation.
